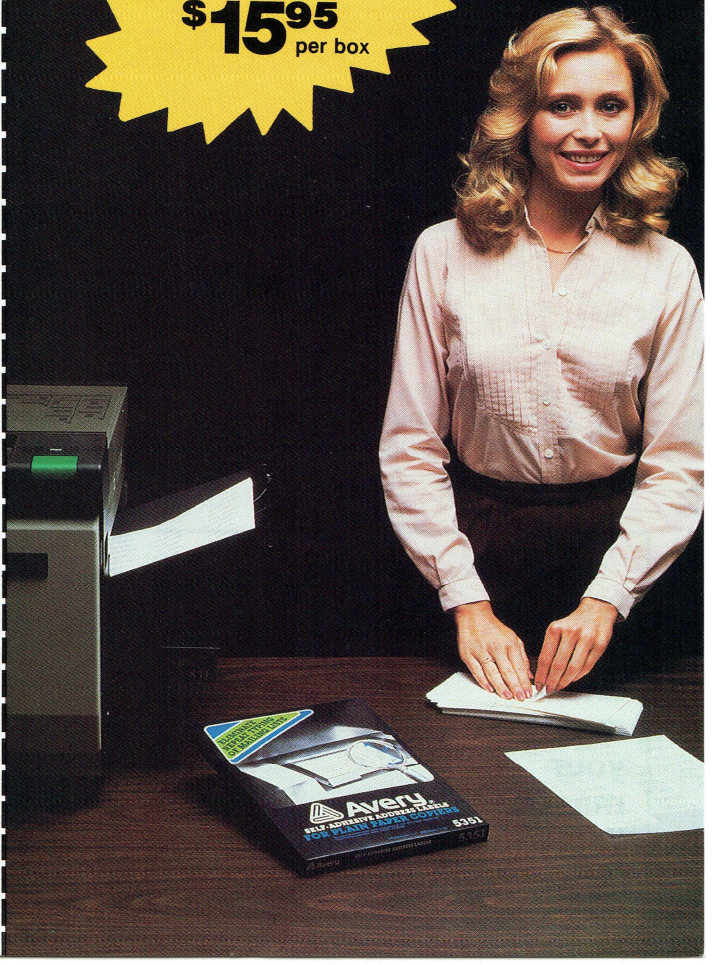
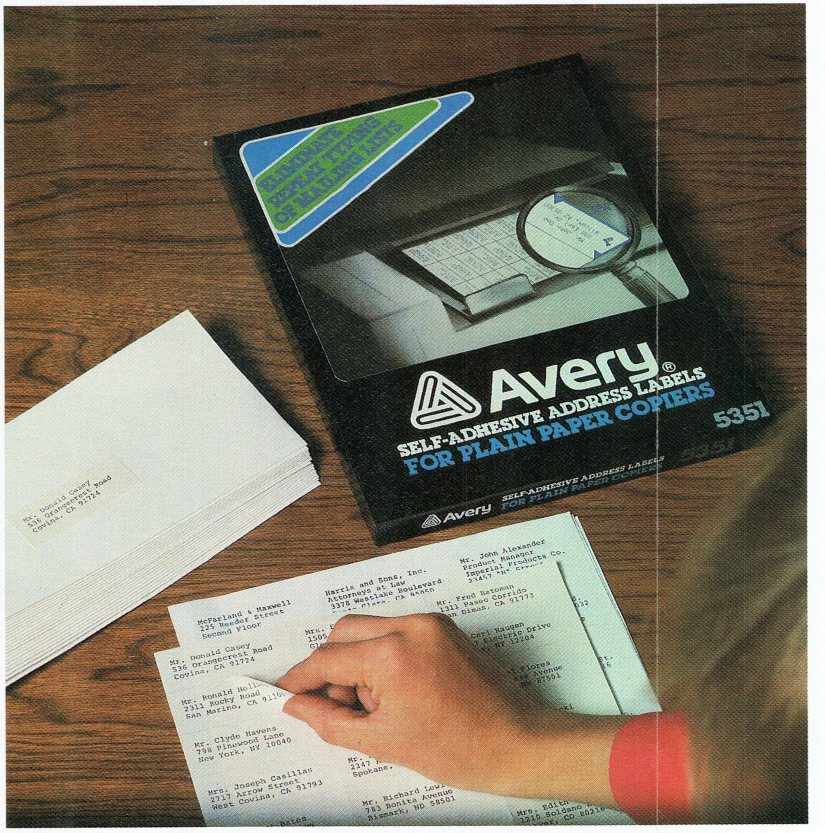
**THANK YOU FOR THIS ORDER.**

# Now: For easier, speedier addressing of your mailing list use your office copier machine and

# AVERY SELF-ADHESIVE COPIER ADDRESS LABELS

Only **$15.95** per box

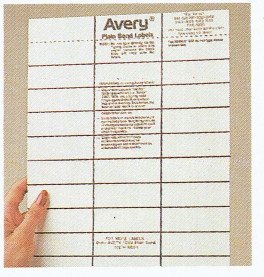




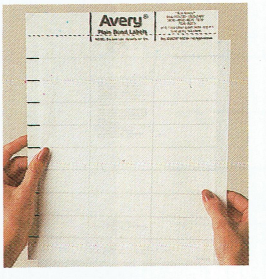
# Avery Self-Adhesive Labels adhere quickly to envelopes without mess or moistening.

Now there is no need to type labels everytime you make a mailing. Just type a master list. Then use your copier machine to duplicate address labels whenever needed. Labels apply quickly to envelopes saving you time and fuss.

## It's easy to prepare and maintain your master list

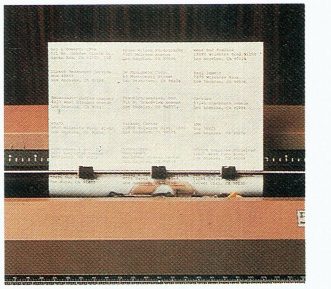


Special typing guide is supplied in each package of Avery Copier Labels.

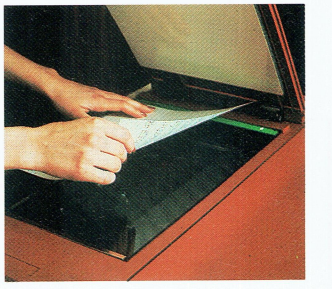


Bond paper is placed over typing master list.

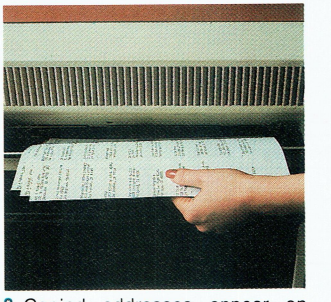
## AVERY LABELS ARE AS SIMPLE TO USE AS COPIER PAPER



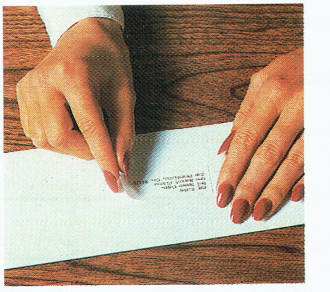
**1.** Type master list on plain bond paper. There is a typing guide in every package to help you line up names and address.



**2.** Load Avery Copier Labels into copying machine. Run off as many copies as needed from typed master.



**3.** Copied addresses appear on sheets of self-adhesive labels.



**4.** Remove copied address labels from backing paper. Apply labels to envelopes for mailing.

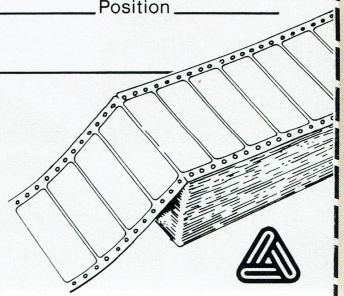
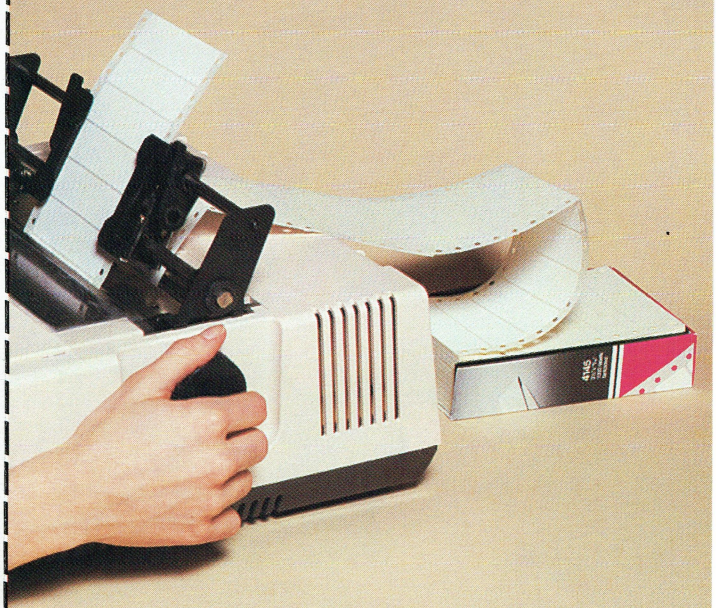
**Thank you for this order.**



## Here are AVERY SELF-ADHESIVE MICRO-COMPUTER LABELS

**made especially to turn your word processor or micro computer into a high speed label addresser**

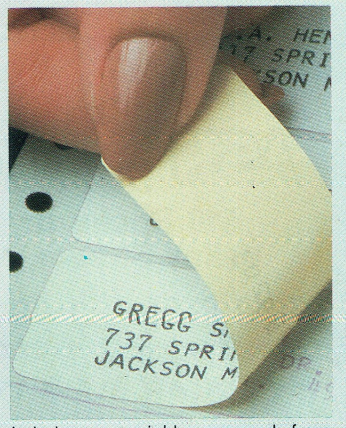


**NEW MICRO-COMPUTER LABELS PACKED IN SMALL QUANTITIES FOR YOUR CONVENIENCE.**

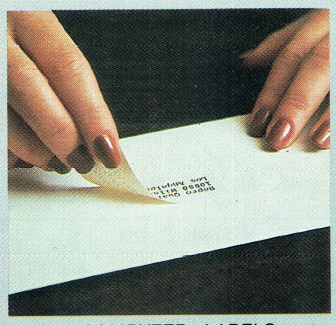
# This is how to run the names and addresses on your mailing list.

## USE AVERY SELF-ADHESIVE MICRO-COMPUTER LABELS for faster, trouble-free addressing.

You can also use them for imprinting repetitive short message copy. Tabulabels won't smudge, jam, tear or come loose from backing sheet in your printer.



Labels are quickly removed from backing sheet.



MICRO-COMPUTER LABELS may be applied to most any surface.

Labels will not lift off their backing and jam the printer like ordinary labels can.

Specially designed for the small diameter platens on word processors and microcomputers.

Conveniently packed 1000 labels per box, to fit neatly behind printer.
